CLASS 2 PRIMEVAL AWARENESS Action Beginning at 3rd level, you can use your action and expend one ranger spell slot to focus your awareness on the region around you. For 1 minute per level of the spell slot you expend, you can sense whether the following types of creatures are present within 1 mile of you (or within up to 6 miles if you are in your favored terrain): aberrations, celestials, dragons, elementals, fey, fiends, and undead. This feature doesn't reveal the creatures' location or number. (You can expend one ranger spell slot to focus your awareness on the region around you. SUBRACIAL ELF WEAPON TRAINING FLEET OF FOOT CLASS 1 FIGHTING STYLE At 2nd level, you adopt a particular style of fighting as your specialty.
	ADDITIONAL FEATURE: DISCOVERY The quiet seclusion of your extended hermitage gave you access to a unique and powerful discovery. The exact nature of this revelation depends on the nature of your seclusion. It might be a great truth about the cosmos, the deities, the powerful beings of the outer planes, or the forces of nature. It could be a site that no one else has ever seen. You might have uncovered a fact that has long been forgotten, or unearthed some relic of the past that could rewrite history. It might be information that would be damaging to the people who or consigned you to exile, and hence the reason for your return to society.
	OTHER / CONDITIONAL ARCHERY You gain a +2 bonus to attack rolls you make with ranged weapons. DRAGONS Dragons are large reptilian creatures of ancient origin and tremendous power. GRASSLAND You are particularly familiar with one type of natural environment and are adept at traveling and surviving in such regions.

3	Prayer beads	1	—

Cube of Force — Rare · Magic Item · 0 lb. · Attuned

This cube is about an inch across. Each face has a distinct marking on it that can be pressed. The cube starts with 36 charges, and it regains 1d20 expended charges daily at dawn.

If your **movement** causes the barrier to come into contact with a solid object that can't pass through the cube, you can't **move** any closer to that object as long as the barrier remains.

Oathbow — Very Rare · Magic Item · Attuned

When you nock an arrow on this bow, it whispers in Elvish, "Swift defeat to my enemies." When you use this weapon to make a ranged **attack**, you can, as a command phrase, say, "Swift death to you who have wronged me." The target of your **attack** becomes your sworn enemy until it dies or until dawn seven days later. You can have only one such sworn enemy at a time. When your sworn enemy dies, you can choose a new one after the next dawn.

While your sworn enemy lives, you have disadvantage on **attack** rolls with all other weapons.

Prayer beads — Item · Attuned

PRAYER BEADS

(signature item) 25 beads, some have symbols, some don't (yet)

BONUS ACTION TO USE A BEAD

MANTIS STYLE

2 Unarmed Strikes (Fist); if both hit you may make one additional **attack**, striking with both fists, (additional +1 to hit) dealing 2d6/d8 damage

** Iron feet * = you gain a +4 bonus to AC, and you have advantage on Strength and Constitution saving throws. While in this state, you are prone, your speed is 0 and can't increase, you have disadvantage on Dexterity saving throws, you can't take reactions, and the only action you can take is a **bonus action** to end this effect

ITEM DESCRIPTIONS

You can use an action to press one of the cube's faces, expending a number of charges based on the chosen face, as shown in the Cube of Force Faces table. Each face has a different effect. If the cube has insufficient charges remaining, nothing happens. Otherwise, a barrier of invisible force springs into existence, forming a cube 15 feet on a side. The barrier is centered on you, **move**s with you, and lasts for 1 minute, until you use an **action** to press the cube's sixth face, or the cube runs out of charges. You can change the barrier's effect by pressing a different face of the cube and expending the requisite number of charges, resetting the duration.

The cube loses charges when the barrier is targeted by certain spells or comes into contact with certain spell or magic item effects, as shown in the table below.

When you make a ranged **attack** roll with this weapon against your sworn enemy, you have advantage on the roll. In addition, your target gains no benefit from cover, other than total cover, and you suffer no disadvantage due to long range. If the **attack** hits, your sworn enemy takes an extra 3d6 piercing damage.

Each bead can be used once/long rest

** Praying Mantis' Swiftness * = as part of each attack you make you can also **move** up to 15ft towards a target

MANTIS STYLE

2x successful **Unarmed Strike** (Fist)

IRON MARCH

move 5 ft + 1x Melee Weapon **attack** + move 5ft + Melee Weapon **attack**; after canceling Iron Feet; if both hit you may reuse Iron Feet immediately, for free

** Steelfist * = grants +3 to hit and a d10 to unarmed strikes vs armored enemies; as part of the **action** you can also make an **unarmed strike**

PERSONAL CHARACTERISTICS

PERSONALITY TRAITS:

- Calculated and patient; willing to wait for the perfect moment to strike rather than rushing in.
- Speaks in soft, rapid bursts, often shifting eyes to track multiple movements at once.
- Unsettlingly still when thinking; can remain motionless for hours.
- Deeply protective of personal space and territory, becoming aggressive if cornered.
- Pragmatic approach to problem-solving: views challenges as prey to be trapped or obstacles to be navigated around.

IDEALS:

- Adaptability: Survival dictates that one must change their approach based on the environment.
- Autonomy: A creature should be the master of its own web; external control is an affront to nature.
- Efficiency: Do not expend energy where a simple, precise action will suffice.
- Interconnectedness: All things are tied together; tugging one thread inevitably affects the whole.

BONDS:

- Bound to a hidden cache of stolen documents, believing them to be the key to their past.
- Owes a life-debt to an outcast druid who healed them from a near-fatal injury.
- Maintains a secret pact with a swarm of arachnids that act as eyes and ears throughout the city.
- Fiercely loyal to a small group of fellow outcasts, regarding them as their "brood."

FLAWS:

- Territorial Anxiety: Becomes agitated and irrational when forced to stay in unfamiliar or "unsecured" locations.
- Sensory Overload: In bright, loud, or crowded areas, they become panicked and disoriented.
- Predator's Arrogance: Frequently underestimates the intelligence and capabilities of "prey" (those they deem weaker).
- Gluttony for Information: Obsessively gathers secrets even when it puts them in direct danger.

ALLIES & ORGANIZATIONS

- The Weaver's Guild (Secretive): A network of spies and rogues who utilize webs of misinformation.
- "Mother" Kaelen: A reclusive herbalist/chemist who provides toxins and antidotes in exchange for rare venom samples.
- The Iron Guards (Rivals): They view the character as a pest to be exterminated due to their habit of infiltrating secure facilities.

ADDITIONAL FEATURES

- Quirk: Habitually taps fingers against surfaces to feel vibrations in the air.
- Quirk: Often climbs walls or sits on high rafters rather than sitting in chairs.
- Appearance: Eyes have a faint, unnatural reflective glow in low light; hair is often messy and moves as if disturbed by a slight, unseen breeze.
- Hook: Carries a sealed, silk-wrapped container they refuse to open in front of others.

BACKSTORY

Born into a subterranean community where silence was the only law, they learned early that the loudest voices were the first to die. They survived by becoming part of the shadows, mimicking the movements of the great wolf spiders that inhabited the cavern walls. A turning point came when they uncovered a conspiracy involving the abandonment of their clan by surface-dwelling merchants. Exiled for what they discovered, they now travel the world, weaving their own complex web of influence, seeking the patrons who betrayed their kin—and ensuring those patrons walk directly into a trap of their own making.
